HEAVY DUTY TIMER

Everybody's been asking for it! With coffee brewers always on, your customers want a machine that will turn on at, for example, 6:00 AM and turn off at 7:00 PM. Therefore, saving energy and money during "off" hours. This is a three wire, grounded timer for heavy-duty use. Just plug into outlet and machine. This timer will turn on/off up to 12 times each day. Manual override and UL approved.

- Extra loud audible alarm
- Times down from 19 hrs 59 min
- Spring-loaded clip converts to stand and magnetic back

Part#
TOA

TRIPLE OUTLET ADAPTER

Converts single receptacle opening to three outlets.

NEMA 5-15

Part#
SP

ULTRA SURGE PROTECTOR

Surge protection is a recommended MUST for all equipment with electronic components. Vending machines, coffee brewers, microwave ovens, computers, fax machines, etc. Most outlets sustain thousands of power surges or spikes per year. These power surges can seriously damage and eventually destroy the delicate circuitry in advanced electronic equipment.

15A-125V, 1875 WATTS rating. 120 Joules Total, 330V Peak suppression, UL Listed

NEMA 5-15
